

“A team of 30 Gardeners take care of more than 300 varieties of plants including palms, shrubs and flowering plants”

A visitor's experience of a Hotel begins with its landscape. Whether it is manicured lawns or pathways, these spaces benefit from the same attention to detail as a suite or a gallery. However, centralized landscapes require painstaking care. Madhubhan Resort & Spa believes that the eco-friendly landscape is the

need of the time and it will go a long way. Our landscaping with water bodies around beautiful outdoor seating areas, outdoor garden recreation amenities, including pools, landscaped gardens, lawns and colorful plants are not only eye pleasant but also harboring lots of natural living beings - like birds and

animals. Our pools add gorgeous water features to landscaping and provide pleasant views that enhance ambience of resort. The hospitality landscape is evolving at a fast pace as hotels face increasing demand to become more social and engaging in their marketing efforts. Travelers now look for the places where they are

very close to nature thus our efforts are always towards creating the atmosphere which is the soul of nature.

Amul Dairy, Anand (Gujarat)

On Friday... A visit to AMUL

Introduction: Amul is an Indian dairy cooperative, based at Anand in the state of Gujarat, India. The word Amul is derived from the Sanskrit word meaning rare, valuable. The Co-operative was initially referred to as Anand Milk Federation Union Limited hence the name AMUL. Formed in 1946, it is a brand managed by a cooperative body, the Gujarat Co-operative Milk Marketing Federation Ltd. (GCMMF), which today is jointly owned by 3.6 million milk producers in Gujarat. Amul spurred India's White Revolution, which made the country the world's largest producer of milk and milk products. In the process Amul became the largest food brand in India and has ventured into markets overseas. Dr. Verghese Kurien, founder- chairman of the GCMMF for more than 30 years (1973-2006), is credited with the success of Amul.
